2012-12-05 7:09 pm [AIANational](#) [@HenneberyEddy](#) will be posting today's questions.

2012-12-05 7:10 pm [HenneberyEddy](#) [@HenneberyEddy](#), ready to rock 'n roll with Q1? **#aiachat**

2012-12-05 7:10 pm [HenneberyEddy](#) Thank you to [@AIAnational](#) for the introduction, we are excited for today's **#aiachat** and we'll get started now!

2012-12-05 7:12 pm [MercyMDesign](#) q1: What percentage of your firm's work do you consider to be "design"? **#aiachat**

2012-12-05 7:13 pm [GlobalSitePlans](#) RT [@AIANational](#): I'm thrilled that [@HenneberyEddy](#) is our guest today. Hennebery Eddy is a design firm in Portland, OR. **#aiachat**

2012-12-05 7:13 pm [GlobalSitePlans](#) A1 Not an architecture firm, but our business is all design, in my opinion. It's a daily creation/design process. **#aiachat**

2012-12-05 7:14 pm [falloutstudio](#) [@jonaskayla](#) See you there. Want to join **#aiachat** in the meantime?

2012-12-05 7:14 pm [GlobalSitePlans](#) A1: #allORnothing **#aiachat**

2012-12-05 7:14 pm [chattanoogaarch](#) A1 Perhaps this question could be widened to include those who are students on **#aiachat** as well?

2012-12-05 7:15 pm [HawkinsArch](#) A1: about 10% **#aiachat**

2012-12-05 7:15 pm [HawkinsArch](#) Q1: Somewhat of a "loaded" question. "Design" includes a vast range of possibilities. Includes all aspects of our work. Invades all **#aiachat**

2012-12-05 7:15 pm [RitaSaikali](#) Q1) 100%, although we may have about 25% "designer" titles, we always look at solutions from a #design perspective collectively. #
aiachat

2012-12-05 7:15 pm [HenneberyEddy](#) [@falloutstudio](#) can you elaborate? #**aiachat**

2012-12-05 7:16 pm [chattanoogaarch](#) A1: recent work has been code reviews and as-built documentation. #

2012-12-05 7:17 pm [HawkinsArch](#) Approach every issue as a "design" issue. Details. Drawings. SOQ. etc, etc. And unfortunately even some billings these days! :-0 #

2012-12-05 7:18 pm [RitaSaikali](#) [@HawkinsArch](#) agreed... billings too? Interested to learn how. #
aiachat

2012-12-05 7:18 pm [HenneberyEddy](#) [@HawkinsArch](#) this question was meant to establish a basis for the rest of the discussion, we agreed that design can be found in all #
aiachat

2012-12-05 7:18 pm [HenneberyEddy](#) q2: How collaborative is your design process? #**aiachat**

2012-12-05 7:19 pm [VOAArchitecture](#) Just joining in on today's #**aiachat**

2012-12-05 7:19 pm [HawkinsArch](#) Yes! That is how it should be!! MT [@ritasaikali](#): Q1) 100%, , we always look at solutions from a #design perspective collectively. #
aiachat

2012-12-05 7:19 pm [falloutstudio](#) [@HenneberyEddy](#) our process starts w/ a #coffeesketch 'Design' is inherent in all phases and all projects #**aiachat** A1

2012-12-05 7:19 pm [WRA_Architects](#) A1: Our firm focuses on finding design in every project we work on. The more personal a project is the more pride we take in it #**aiachat**

2012-12-05 7:19 pm [VOAArchitecture](#) RT [@AIANational](#): I'm thrilled that [@HenneberyEddy](#) is our guest today. Hennebery Eddy is a design firm in Portland, OR. #**aiachat**

2012-12-05 7:19 pm [DRAlmada](#) [@HawkinsArch](#) Well said about applying design to billings and other office activities. #**aiachat**

2012-12-05 7:20 pm [MercyMDesign](#) A1 As a student its probably about 20% research at the beginning and 80% for the rest, except for thesis work, which is about 50-50 #
aiachat

2012-12-05 7:20 pm [chattanoogaarch](#) A2: try to engage client thru entire design process with sketches and 3D models. #**aiachat**

2012-12-05 7:20 pm [robertrdz1](#) [@AIANational](#) Does form follow function, or does function follow form ? :) In school we are told to do both, EPCC El Paso TX #**aiachat**

2012-12-05 7:21 pm [HawkinsArch](#) [@ritasaikali](#) Just being fun! I meant that even those take some creativity in the current economy! Hard to design appropriate fee! #
aiachat

2012-12-05 7:21 pm [falloutstudio](#) a2: collaboration is paramount both internally as a studio but additionally w/ consultants and clients we r fortunate to work w/ #
aiachat

2012-12-05 7:21 pm [chattanoogaarch](#) A2: clients want to be kept informed of every step so they know where money is going. #**aiachat**

2012-12-05 7:22 pm [HenneberyEddy](#) [@chattanoogaarch](#) how about internally? #**aiachat**

2012-12-05 7:22 pm [GlobalSitePlans](#) A2 My design process is 60% individual, 40% collaborative. Once I have something in mind, I seek opinions that often change it. #**aiachat**

2012-12-05 7:22 pm [HawkinsArch](#) [@ritasaikali](#) But my invoices are very detailed and present the information in a effective manner. So at some point I designed them! #**aiachat**

2012-12-05 7:23 pm [RitaSaikali](#) A2) Very - from the get-go & throughout phases, discussions involve designers, market specialists, technical staff, estimators etc #**aiachat**

2012-12-05 7:23 pm [DRAlmada](#) Q2) Very collaborative. Helps me feel like I am in tune with projects I am not managing. Q2) #**aiachat**

2012-12-05 7:23 pm [ELMplan](#) Ditto what [@HawkinsArch](#) said... MT "Approach every issue as a "design" issue. Details. Drawings. SOQ. etc (inc'l billing!)" #**aiachat**

2012-12-05 7:24 pm [HawkinsArch](#) A2: Design=collaboration. It must! It is not always an easy task. Some of the players are not always willing. But we try hard!! #**aiachat**

2012-12-05 7:24 pm [RitaSaikali](#) [@HawkinsArch](#) I like your approach, hadn't considered it ;-) Proof we can truly apply #design to the ENTIRE process & business. #**aiachat**

2012-12-05 7:25 pm [falloutstudio](#) a2: as design is a process that you just learn so much from listening | collaboration & transparency is key for project and studio #**aiachat**

2012-12-05 7:25 pm [HenneberyEddy](#) Are there any sole proprietors in #**aiachat** today? Would love to hear how you collaborate?

2012-12-05 7:25 pm [RitaSaikali](#) [@falloutstudio](#) yes RE: internal + external collaboration. #**aiachat**

2012-12-05 7:26 pm [VOAArchitecture](#) RT [@HawkinsArch](#): Q1: Somewhat of a "loaded" question. "Design" includes a vast range of possibilities. Includes all aspects of our work. Invades all #**aiachat**

2012-12-05 7:26 pm [chattanoogaarch](#) [@HenneberyEddy](#) I'm always thinking about design. If client's wish takes more than sketch I explain further steps of process. #**aiachat**

2012-12-05 7:26 pm [GlobalSitePlans](#) Let's clarify "design:" to create, fashion, execute, or construct according to plan; to make a drawing, pattern, or sketch. #**aiachat**

2012-12-05 7:27 pm [AIA_Media](#) Great article on #design process positioning #architects as problem solvers <http://t.co/0gbCxoGe> via [@PostRealEstate](#) #**aiachat**

2012-12-05 7:27 pm [chattanoogaarch](#) [@HenneberyEddy](#) I'm a sole proprietor. Hard to collaborate but offer to discuss and sketch out ideas in front of client. #**aiachat**

2012-12-05 7:27 pm [GlobalSitePlans](#) Again, Let's clarify "design:" to conceive and plan out in the mind; to draw the plans; to have as a purpose. #**aiachat**

2012-12-05 7:28 pm [HenneberyEddy](#) q3: Does your design team build consensus, compromise, or does one designer ultimately make decisions? #**aiachat**

2012-12-05 7:28 pm [RitaSaikali](#) [@chattanoogaarch](#) with consultants too? #**aiachat**

2012-12-05 7:28 pm [HawkinsArch](#) A2 It is one of our main talents as Architects. We are facilitators of collaboration. & it should be an integral part of practice. #**aiachat**

2012-12-05 7:28 pm [VOAArchitecture](#) A2, we agree with [@HawkinsArch](#) design is collaboration. Keeping everyone involved creates great results! #**aiachat**

2012-12-05 7:29 pm [HenneberyEddy](#) [@GlobalSitePlans](#) For today's #**aiachat** let's think of design as the creative process.

2012-12-05 7:29 pm [chattanoogaarch](#) [@RitaSaikali](#) Usually consultants come in after layout is developed to inform of systems. #**aiachat**

2012-12-05 7:30 pm [HenneberyEddy](#) Agreed! MT [@hawkinsarch](#): A2 It is one of our main talents as Architects...it should be an integral part of practice. #**aiachat**

2012-12-05 7:31 pm [GlobalSitePlans](#) [@henneberyeddy](#) Great, thank you for the clarification. #**aiachat**

2012-12-05 7:31 pm [HawkinsArch](#) Agree with thoughts abt internal & external collaborations. Both are key to thoughtful design process. Many minds r better than 1 #

- 2012-12-05 7:32 pm [chattanoogaarch](#) [@RitaSaikali](#) Agree with your A3. most of time architect acts as lead designer unless it's a manufacturing facility. **#aiachat**
- 2012-12-05 7:32 pm [HawkinsArch](#) A3: It's a team effort. Everyone on the team has to work for the best solution for the client. **#aiachat**
- 2012-12-05 7:33 pm [JasnaHadzic](#) Q3: In school, every solution to a design project was ultimately decided based on building consensus **#aiachat**
- 2012-12-05 7:33 pm [VOAArchitecture](#) [@HawkinsArch](#) agreed! **#aiachat**
- 2012-12-05 7:33 pm [falloutstudio](#) a3: ideally #design consensus crystallizes the 'aha' moment and allows for both the bold vision of many and a series of compromises **#aiachat**
- 2012-12-05 7:34 pm [JA_Castillo](#) A3 - it is my experience that generally, one principal makes the design decisions or it is a consensus b/w a couple of them. **#aiachat**
- 2012-12-05 7:35 pm [RitaSaikali](#) [@chattanoogaarch](#) fair, + we should be flexible to adapt our design to optimize all systems to work together; structural/MEP etc **#aiachat**
- 2012-12-05 7:35 pm [JA_Castillo](#) Yes! RT [@VOAArchitecture](#): A2, we agree with [@HawkinsArch](#) design is collaboration. Keeping everyone involved creates great results! **#aiachat**
- 2012-12-05 7:35 pm [HawkinsArch](#) A3 Everyone on the internal team has input on design. All parts if they want it. Each person has a certain perspective to add. **#aiachat**
- 2012-12-05 7:37 pm [falloutstudio](#) RT [@VOAArchitecture](#): A3, Our design teams work as a collaborative effort - consensus, compromise! We welcome new, creative ideas from anyone on the team. **#aiachat**
- 2012-12-05 7:37 pm [HenneberyEddy](#) q4: To what degree is a client (or public) involved in the design process. How do you manage design-related disagreement with them? **#aiachat**
- 2012-12-05 7:37 pm [MercyMDesign](#) [@HenneberyEddy](#) In school, it can be a clash because everyone wants parts of their design to show so the teacher knows they did work **#aiachat**
- 2012-12-05 7:37 pm [VOAArchitecture](#) Agree with [@RitaSaikali](#) for A3 as well, leadership is key to driving a project forward and making clear decisions! **#aiachat**
- 2012-12-05 7:38 pm [DRAlmada](#) A3) We keep it open. the lead designer or principal has to make the key decisions. Otherwise as artists we will keep pushing **#aiachat**
- 2012-12-05 7:39 pm [MercyMDesign](#) [@HenneberyEddy](#) A3 The phrase "A good compromise leaves everyone unhappy" can definitely apply in these cases **#aiachat**
- 2012-12-05 7:39 pm [VOAArchitecture](#) A3, ideally the design process should be balanced between

productive collaboration and strategic leadership. **#aiachat**

2012-12-05 7:39 pm [HawkinsArch](#) A4 That is dependent on the client and the project. But they always have involvement. It may be based more on their view of Arch. **#aiachat**

2012-12-05 7:40 pm [chattanoogaarch](#) Q4: Usually will discuss with them why I might disagree with their wish but ultimately must meet their needs. **#aiachat**

2012-12-05 7:40 pm [HenneberyEddy](#) [@mercymdesign](#) Yes, in school teams can be a challenge as everyone wants to stand out! All that creative energy is exciting though! **#aiachat**

2012-12-05 7:41 pm [MercyMDesign](#) [@HenneberyEddy](#) A4 We often have real clients for our project who come in at the start of the design to let us know what they want **#aiachat**

2012-12-05 7:41 pm [HawkinsArch](#) A4 Managing design disagreements is always tricky. About best wording here is "You win some, you lose some" Explanations help win. **#aiachat**

2012-12-05 7:42 pm [chattanoogaarch](#) A4: A good working connection with your client can alleviate tensions if there is disagreement. **#aiachat**

2012-12-05 7:43 pm [HawkinsArch](#) A4: Explain your process better about the design solution you presented. Client still may disagree, but you need to try. **#aiachat**

2012-12-05 7:44 pm [HawkinsArch](#) Yep. RT [@chattanoogaarch](#): Q4: Usually will discuss with them why I might disagree but ultimately must meet their needs. **#aiachat**

2012-12-05 7:44 pm [chattanoogaarch](#) A4: sometimes the codes help me explain why something can't be done. **#aiachat**

2012-12-05 7:44 pm [VOAArchitecture](#) RT [@HenneberyEddy](#): q3: Does your design team build consensus, compromise, or does one designer ultimately make decisions? **#aiachat**

2012-12-05 7:44 pm [MercyMDesign](#) [@HenneberyEddy](#) A4 if you see a teacher as a type of client there can be differences in vision which cause you to fail the project **#aiachat**

2012-12-05 7:45 pm [HenneberyEddy](#) [@HawkinsArch](#) Agreed, client's view of architecture has great influence on a project. As designers we must "challenge" those views **#aiachat**

2012-12-05 7:45 pm [falloutstudio](#) & why certain things should b considered RT [@chattanoogaarch](#): A4: sometimes the codes help me explain why something can't be done. **#aiachat**

2012-12-05 7:47 pm [RitaSaikali](#) A4) discuss cons/pros of their suuggestion + educate them on alternates to yield middle ground, not sacrificing quality/bottom line **#aiachat**

2012-12-05 7:48 pm [HenneberyEddy](#) [@mercymdesign](#) Yes, although teachers aren't always correct about design. If you back it up with imagery, the argument is stronger **#aiachat**

2012-12-05 7:49 pm [HenneberyEddy](#) q5: Where do you find design inspiration? **#aiachat**

2012-12-05 7:49 pm [HenneberyEddy](#) Yes. MT [@ritasaikali](#): A4) ...not sacrificing quality/bottom line **#aiachat**

2012-12-05 7:51 pm [RitaSaikali](#) A5) varied physical/online environments; design & non-design convos, other projects, travels, imagery, [@pinterest](#) =) **#aiachat**

2012-12-05 7:53 pm [chattanoogaarch](#) A5: agree with [@RitaSaikali](#) but more specifically from the project context. **#aiachat**

2012-12-05 7:54 pm [HenneberyEddy](#) [@ritasaikali](#) what's inspired you most recently? **#aiachat**

2012-12-05 7:54 pm [falloutstudio](#) A5: exchanging where for how, design inspiration stems from childlike

curiosity. literal & figurative dialogue w/ people & place **#aiachat**

2012-12-05 7:55 pm [greenarchitext](#) RT [@AIA_Media](#): Great article on #design process positioning #architects as problem solvers <http://t.co/0gbCxoGe> via [@PostRealEstate](#) **#aiachat**

2012-12-05 7:56 pm [HawkinsArch](#) A5: [@RitaSaikali](#) already gave a great answer. But I also try to draw inspiration from nature and the natural world around us. **#aiachat**

2012-12-05 7:56 pm [RitaSaikali](#) [@HenneberyEddy](#) work of [@archforhumanity](#); always providing max results with min means; helps w/ my client/project constraints. **#aiachat**

2012-12-05 7:57 pm [HenneberyEddy](#) q6: Do you begin designing with form or function? **#aiachat**

2012-12-05 7:59 pm [RitaSaikali](#) [@HenneberyEddy](#) a graphic response via my pinterest =) <http://t.co/Psb7F0gR> + the progressive work of some architects such as SHoP. **#aiachat**

2012-12-05 7:59 pm [MercyMDesign](#) [@HenneberyEddy](#) A6 Function always, otherwise you won't pass the project, and site research to see how it functions in its area **#aiachat**

2012-12-05 7:59 pm [falloutstudio](#) a6: Fiction as it allows 4 both; every design has a story 2 tell RT [@HenneberyEddy](#): q6: Do you begin designing w/ form or function? **#aiachat**

2012-12-05 8:01 pm [HenneberyEddy](#) [@ritasaikali](#) that's some great imagery! <http://t.co/ms7MuPK1> **#aiachat**

2012-12-05 8:02 pm [VOAArchitecture](#) RT [@HenneberyEddy](#): [@ritasaikali](#) that's some great imagery! <http://t.co/ms7MuPK1> **#aiachat**

2012-12-05 8:02 pm [chattanoogaarch](#) A6: Generally start with function. Seems published starchitects today focus most on form. Is that architecture or sculpture? **#aiachat**

2012-12-05 8:03 pm [HenneberyEddy](#) [@falloutstudio](#) what about a remodel of an existing building - the form already exists - so function must follow form. **#aiachat**

2012-12-05 8:03 pm [MercyMDesign](#) [@HenneberyEddy](#) A5 I look at the site area and try to grab elements from there and how other international architects did it **#aiachat**

2012-12-05 8:03 pm [RitaSaikali](#) [@falloutstudio](#) [@HenneberyEddy](#) agreed, the story keeps us & our clients engaged, excited, and optimistic **#aiachat**.

2012-12-05 8:03 pm [HenneberyEddy](#) Great point MT [@chattanoogaarch](#): A6: ...Seems published starchitects today focus most on form. Is that architecture or sculpture? **#aiachat**

2012-12-05 8:05 pm [HenneberyEddy](#) q7: To what degree do you revisit your past projects when designing a new one? **#aiachat**

2012-12-05 8:05 pm [RitaSaikali](#) A6) Begin design with programming, hence function... inevitably with form ideas at hand. **#aiachat**

2012-12-05 8:06 pm [falloutstudio](#) [@RitaSaikali](#) very true. stories are important. nicely put **#aiachat**

2012-12-05 8:07 pm [chattanoogaarch](#) Q7: Review similar details and layouts but only if similar. "How'd I do that last time?" **#aiachat**

2012-12-05 8:07 pm [falloutstudio](#) a7: seldom, but revisiting old sketchbooks, dipping back into process - often. **#aiachat**

2012-12-05 8:08 pm [MercyMDesign](#) [@HenneberyEddy](#) A7 I try to remember what parts of my old projects my teachers didn't like so that I won't make the same mistakes. **#aiachat**

2012-12-05 8:09 pm [chattanoogaarch](#) One source of inspiration we forgot about. Sketchbook images made while traveling. I use that some times. **#aiachat**

2012-12-05 8:09 pm [HawkinsArch](#) A6 Larger scale = function. Smaller scale (i.e. details) = form. And the "story" is also one part of the overall function. **#aiachat**

2012-12-05 8:10 pm [RitaSaikali](#) A7) Agree w [@chattanoogaarch](#) on repeat solutions+ [@falloutstudio's](#) sketchbook for ideas that could've been great/were not realized. **#aiachat**

2012-12-05 8:10 pm [HenneberyEddy](#) [@mercymdesign](#) Also remember what worked so you can build on it in the next project; reuse a good process to create new ideas. **#aiachat**

2012-12-05 8:10 pm [RitaSaikali](#) RT [@HawkinsArch](#): A6 Larger scale = function. Smaller scale (i.e. details) = form. And the "story" is also one part of the overall function. **#aiachat**

2012-12-05 8:10 pm [MercyMDesign](#) [@chattanoogaarch](#) My favorite book talking about that is the "Architecture of the Absurd: How "Genius" Disfigured a Practical Art" **#aiachat**

2012-12-05 8:10 pm [falloutstudio](#) [@chattanoogaarch](#) my daughter recently told me she wants to be a sculptor's apprentice because " daddy, its a lot like architecture" **#aiachat**

2012-12-05 8:11 pm [HawkinsArch](#) A7: Yes... Only look back at lessons learned. On all scales of form and function. **#aiachat**

2012-12-05 8:11 pm [RitaSaikali](#) A7) Keep in mind past project's "lessons learned" to be more effective moving forward. **#aiachat**.

2012-12-05 8:12 pm [HenneberyEddy](#) q8: How significantly is your design influenced by evidence-based research or experience? **#aiachat**

2012-12-05 8:15 pm [RitaSaikali](#) Q8) very, no point in re-inventing wheel, but should always look to improve solutions as we learn of new systems/user experiences + **#aiachat**

2012-12-05 8:16 pm [MercyMDesign](#) [@HenneberyEddy](#) A8 It's based on what I've seen work in real life. I'm relatively well traveled, which is reflected in my projects **#aiachat**

2012-12-05 8:22 pm [HenneberyEddy](#) [@chattanoogaarch](#) precedent as in: inspiration drawn from the work of others **#aiachat**

2012-12-05 8:23 pm [HenneberyEddy](#) And we've got one last question for those still around.... **#aiachat**
