WOMEN'S LEADERSHIP SUMMIT 2023

an AIA Leadership Event

Join us in setting a new standard where women take the lead

The profession is changing, and it's about time. WLS exists to support and empower women on their leadership journeys and break down the barriers that get in their way. Through sponsorships, we're creating even more opportunities.

Connect with the industry's largest network of women

Position your firm prominently in front of over 1,200 influential industry leaders at the largest gathering of women in architecture, design, and allied professions in the U.S.

Forge valuable connections, gain visibility, and tap into a network of leaders dedicated to supporting and empowering businesses like yours.

Investing in women, investing in the future of the profession

Companies with diverse executive teams—including women—are 21% more likely to be more profitable than the average company, according to a major study by McKinsey.

Companies with low gender and ethnic/cultural diversity were 29% less likely to achieve above-average profitability.

When women architects and designers have your support, they become more committed to your brand. That commitment results in enduring, strategic, and profitable relationships for your products and services.

2023 attendee stats

900

AEC professionals attended in 2023. 1,200 expected in 2024!
